SPORT  
FOR  
TOMORROW

# The 1st Symposium of NIFS International Sport Academy

Towards the 2020 Olympic and Paralympic Games in Tokyo  
is a part of SPORT FOR TOMORROW

In cooperation with other universities, institutions and organizations, both within Japan and abroad, this project aims to inspire graduate level students for Asian countries whose field of study pertains to sports and sports sciences.

Various NOC-recommended leaders and top coaches from several countries and the National Institute for Fitness and Sport (NIFS) have collaborated to provide this international seminar using facilities at the NIFS campus. Participating students will develop into globally-minded individuals who can work in future professional sporting fields. Also, students will gain educational training and classes on Olympic / Paralympic education programs in Asia.

This time, we will conduct the Symposium as a part of NIFS International Sport Academy.

**SPORT  
FOR  
TOMORROW**

The Japanese government is committed to creating our future through the power of sport with more than 10 million people of over 100 countries from now until 2020. With the Sport for Tomorrow programme, Japan aims to be involved in the promotion of sport and the Olympic and Paralympic movement, including assistance to developing countries; train future sport leaders at the new international sport academy; and further protect and promote the values of sport by extending anti-doping initiatives globally.
